Lighting & Smart Services

Georgia Power's Lighting and Smart Services team provides commercial, industrial and governmental customers with design, installation and maintenance services for outdoor lighting and sports lighting.

We have the knowledge and experience to design systems to fit your needs - whether that's a few lights or a complete customizable system that works just for you. Learn more about how our services can help meet all aspects of your lighting and technology needs.

Outdoor Lighting

Leading the way in LED lighting technology

Georgia Power is a global leader in light-emitting diode (LED) technology. Energy-efficient, environmentally friendly LED lighting offers benefits including:

- Superior lighting quality/uniformity
- White light provides better visibility
- Long fixture life
- Reduced maintenance requests
- Instant on/no warm-up

We provide quality, reliability and value anywhere in the state, even if your electricity is not provided by Georgia Power.

Service Option Benefits

Georgia Power's unique service option allows our customers to pay a monthly charge for the use of a lighting system.

This option offers benefits including:

- No up-front cost for equipment/installation
- 24/7 customer service
- Quick replacement of inoperative lights
- Consistent maintenance
- No repair hassles

Sports Lighting

Design and installation services for all types of venues

Georgia Power's Sports Lighting provides lighting design and installation services for venues of any type or size. With our custom designed lighting systems, you can create an exciting nighttime venue for all your sporting events, including a colorful light show with your school or team colors.

Whether it's a school's field, park and recreational facility, big league field or ballpark, we can recommend and install exactly the right lighting for your needs. Our expertise covers a full range of sports lighting including:

- Baseball
- Softball
- Football
- Lacrosse
- Track
- Soccer
- Tennis

Our Solutions include:

- Full turnkey installation
- New construction and retrofit solutions
- Financing options available
- Warranty programs

Benefits:

- Energy efficient LED lighting
- Wireless controls
- Brighter light and color
- Longer life and lower maintenance required
